River Communities**

COUNCIL ON AGING
OF CENTRAL OREGON

Senior Low-income Defensible Space Program Application

Upper Deschutes River Communities (UDRC) has partnered with Council on Aging (COA) to provide free wildfire fuels reduction services for senior low income homeowners in the Upper Deschutes River and La Pine Community Wildfire Protection Plan areas. If you want to participate and meet the age and income requirements, please fill out this form and send it to COA.

A representative from UDRC will schedule a visit to your property and write a prescription for the fuels reduction work up to \$1000 maximum. Work will focus on creating defensible space within 30 feet of your house and clearance around your driveway. Treatment will include limbing, thinning of small trees, and reducing ground vegetation. Before work is scheduled, you will authorize the prescription and the UDRC Access Permit and Release.

Age and income requirements:

Age: 60 or older. Maximum household yearly income: one resident \$22,000, two residents \$30,000, three or more residents \$38,000
